

FAQ's

Can you customize any booth?

Yes, any of our standard booth models can be customized to fit your needs. You can also send us custom dimensions and we can design a booth to fit the footprint of your shop.

Can you ship to a residential address?

Yes, but will incur an additional shipping fee for a lift gate delivery. Offloading of delivery truck, light bulbs, installation, electrical, and local permitting is the responsibility of the customer. If you are unable to unload your booth at time of delivery, a re-delivery charge is the responsibility of the customer.

Does the fan and motor package ship with the booth?

Yes, as we manufacture our fan bodies in house and assemble the fan and motor package prior to shipping to you. The fan with the motor ships with the booth shipment. You will receive tracking details to your email when the package ships.

Do you Finance?

Our payment terms require 50% down to begin production and 50% when the booth has been completed and ready to ship. We do not offer in house financing; we do accept credit cards.

Do you offer Fire Suppression?

No, but we can assist in locating Fire Suppression Services in your area.
